

# Dealership Software

If you run a dealership ...

*you'll want to run our software.*

Dealer Solutions software helps people run dealerships across many industries, including used cars, motorcycles, trucks, caravans, farm machinery and more. StockIt is the name of our entry level software. It manages, tracks, calculates and reports on all aspects of inventory including GST.

## *Smart dealership software*

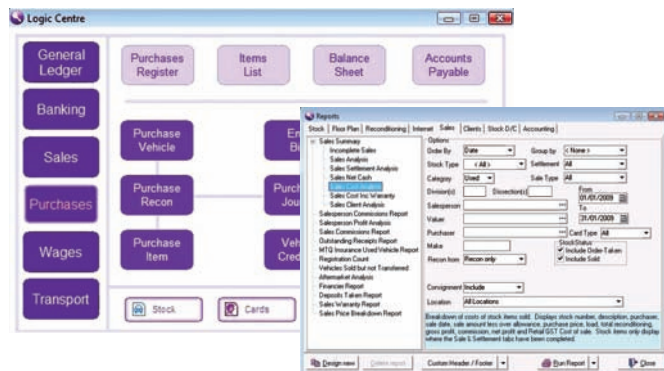

Dealerlogic is our premier inventory management system for non franchised dealerships. This package includes all of the features of StockIt plus fully integrated General Ledger Accounting and Payroll, which means you'll have pretty much everything you need to run your dealership.

*Choose our dealership software and help is always just a phone call away. Michelle Betts leads a large support team, dedicated to helping you get the best results.*

## *Look at the benefits*

- Software is automatically updated online so you are always running the latest version.
- Complete drill down histories of sales and purchases are available for every client and supplier
- This software can be integrated with website inventory and data distribution
- It follows the natural flow of the deal process, tracking trades, payouts and GST as well as offering complete profit calculation with every deal.
- The program comes with expert, ongoing phone support as well as integrated online help.
- When you choose to run Dealerlogic, training and coaching are provided.

## *The complete package!*

Hundreds of dealerships around Australia already use our software to run their business. Contact Dealer Solutions to find out more.
